This index is the work of many, many volunteers, including countless hours of sorting, unfolding, stamping, trimming folders, indexing and entering data in the computer.

A special posthumous thanks has to go to Neal Perfect for his years of entering this information into the computer.

**We have had to divide the index into two (2) parts.  
Be sure to see both the defendants and plaintiffs.**

This index is for Common Pleas records from the 1820's thru the 1920's. There were no case numbers provided to cases before 1884 and some cases did not have a case number. If the case did not have a number, the Delaware County Genealogical Society assigned a number. The number consists of the first letter of the person's last name and a number. The number coincides with a location at the Genealogical Society.
